

Are you ISO 9001:2015 ready?

PLAN

- 1 Have you read the updated version of the ISO 9001:2015 Standard?
- 2 Have you identified areas which require improvement or changes, or conducted a gap analysis?
- 3 Has your business developed an implementation plan to bridge the gaps between the old standards and the new?
- 4 Has the implementation plan been reviewed by an auditor to ensure quality and compliance?

IMPLEMENT

- 5 Do you have procedures and contingency plans in place to rectify non-compliance issues?
- 6 Have your current documentation and systems been updated to reflect the new requirements of the system?
- 7 Are all staff informed and trained on the new requirements of the ISO 9001:2015 update?
- 8 Does your business have the capabilities to conduct comprehensive internal auditing to verify the effectiveness of your updated quality management systems?

REVIEW

- 9 Does the business have a system in place to review and improve the system once the transition is complete?
- 10 Have you checked all the relevant changes made to the quality management system to ensure compliance with the 2015 version?
- 11 Have you contacted your QMS auditor to complete an audit of the updated quality management system?

BusinessBasics Australia is a progressive, forward-thinking business consultancy firm, specialising in Business Management Systems. Our highly experienced team can assist your business with everything from simple document control to a complete Quality Management System (QMS) to achieve ISO 9001 certification.
